

## Student Representative Report

January 18, 2001

Trever Shaishnikoff

The semester started off with the basketball teams having games against the Bethel Warriors. The boys' team was defeated by four points on Friday night and by thirty-nine points on Saturday night. I do not know the exact numbers for the girls' games, but I know that they lost by fifteen to twenty points on both nights. Both teams will be headed to Soldotna on Wednesday, January 17<sup>th</sup>. The Raiders will be joining three other teams for the Cook Inlet Academy Classic.

We still have not had a town hall meeting for the last quarter, let alone this quarter so it is difficult to report on what the students as a whole want to see done. A meeting that was supposed to be attended by the representatives from each class and I was scheduled to be held but, unfortunately never took place. I have been getting a lot of feedback regarding the graduation requirement for math, which I hope we will still be discussing when I return for the February meeting.

I apologize for my absence from this meeting, I am looking forward to February's meeting.
