Isaac Hall  
Report 1  
10-15-01

The quarter is almost over, and things are running smoothly in the high school. Cross-country season is over and swim team and wrestling and volleyball are going strong. Both teams just got back from meets and tournaments and had strong showings. The boys who are going to form our basketball team are ecstatic now that they have a coach. The student representatives left yesterday for a conference in Eileson. That is the reason I am not here. At this conference the students will make comments and suggestions to the ASGA. Also this past Saturday juniors and seniors attended the first SAT of the year. From what I hear from the students, they think they did pretty well.

In the winter some students and I believe drug and alcohol abuse increase due to inactivity. Students are also saying that they need time to play basketball since the P.C.R. has cut back open gym to 2 days. Opening the gym just maybe 2 times a week would keep the basketball-playing students happy.

The junior class is putting on another dance this weekend to fund raise money for prom. They tell me that they have a substantial amount of money, so good luck to them.

The one issue that some students (mainly seniors) come to me about is parking. They feel that when they get here in the morning that there is nowhere to park. So they suggested to me to speak with the board about possibly assigning seniors and juniors' spots, and then probably raffling the remaining spots to the sophomores that are old enough to drive.

Other than that issue, there have only been good things I hear from the students. It is that either everyone is doing a sport or is busy with some other school activity to talk to me.

My next report will more likely have more issue and events on it, since this is the first report.
