

Monica Southworth
Student Representative Report

January 2005

In the past month, or so, we've had a few home basketball games. While the community has been very excited, there aroused one problem. In our community, and in any community, there are people who smoke. Sometimes smokers make life harder for the people who are non-smokers.

To be more specific, at the basketball games, some people who attend are smokers. It seems to me that you can almost always find someone outside the school doors hiding from the inclement weather, smoking a cigarette. The smoke stays around the front doors, this means that non-smokers and students have to breathe this air when they're either entering or exiting the school.

My suggestion to the boards would be to put a 'No Smoking' sign in this area, or make it known that people shouldn't smoke in this area. I'm not sure if the board could do this, but it would be greatly appreciated by non-smoking Raider fans who always attend our basketball games.
