Student Representative Report

September 2005

Monica Southworth

First off, as the re-elected Student Representative for the 2005-2006, I am looking forward to another year on the School Board.

Already, two issues have been brought to me. The first was the parking lines in the High School parking lot needing re-painting. Mr. Sanborn explained to me already what is happening and the issue has been taken care of.

The second issue was to have toilet covers in the restrooms. When I spoke to Mr. Conwell about the issue, he said to me that there were a few concerns about this topic. Mr. Conwell suggested that in each stall in the restroom that there could be sanitary wipes available. This second concern was strongly voiced by the student who brought it to me.
